

STATISTICS OF JEWS

A. JEWISH POPULATION OF THE WORLD

The table of last year with regard to the general statistics of Jews of the world is repeated.

The figures for the United States are those for the census year of 1910, as determined in the memoir on Jewish Population of the United States given in the AMERICAN JEWISH YEAR BOOK for 5675, pp. 339-378.

According to the revised figures, the total number of Jews of the world in the census years 1910-1911 was 13,277,542, divided among continents as follows:

America .....	2,500,054
Asia .....	356,617

## B. JEWISH IMMIGRATION INTO THE UNITED STATES

The following tables give the main figures relating to the Jewish immigration to the United States from the year 1881 to June 30, 1915. For the earlier years, from 1881 to 1900, the results are only for the ports of New York, Philadelphia, and Baltimore; from 1899 onwards, the figures are from the results of the Commissioner-General of Immigration. In some instances the figures refer only to the years 1912-1914, continuing those of the YEAR BOOK for 5674, pp. 431-436.

The complete statistics of immigration to the United States, as shown by the Commissioner-General's reports, are given below for the period 1899-1915. It will be seen that for this period of seventeen years Jewish immigration has been approximately 1,500,000 amounting to 11 per cent of the total immigration.

Since 1908, the number of aliens leaving the United States is given as well as the number admitted. It will be observed that for the eight years the total number of Jews returning is 48,401. Approximately 8 per cent of the Jews admitted left the United States. This figure contrasts strikingly with the number of immigrants of other nationalities that leave the United States, over 30 per cent.

<sup>1</sup> Year ending June 30.

The Jewish immigration since 1881 is approximately 1,850,000. On the basis of the per cent leaving the United States since 1908, the total number departed during this period would be 150,000, leaving a net increase through immigration of 1,700,000.

Of interest in connection with the number of immigrants admitted are the data for those rejected on application for admission and those returned from the United States after admission. The figures are shown in the table below.

<sup>1</sup> Year ending June 30.

During a period of seventeen years, the number of Jews rejected on application for landing was 18,930, or approximately 9 per cent of the total number of immigrants debarred. This is considerably less than the proportion which Jews form of the total immigration for the same period—11 per cent.

For the same period, the number of Jews returned after landing was 2,357, or 8 per cent of the total number deported. This, again, is lower than the proportion of Jews in the total immigration.

## IMMIGRATION 1913-1915

During the two years ending June 30, 1915, there were admitted 165,314 Jews. The number departing was 8,389. The net increase through migration was thus 156,925. The net increase for 1913-1914 was 131,225, exceeding by over 36,000 that of 1912-1913, and by over 35,000 that of 1907-1908, the year of largest previous immigration of Jews. The figures for 1914-1915 betray the influence of the European war on Jewish as on general immigration.

Below are shown the number of Jewish immigrants for the leading ports, according to the data supplied by the National Jewish Immigration Council. They are not the complete figures for the United States, and should not be compared in detail with the Government figures.
