STATISTICS OF JEWS

The present article on Statistics of Jews follows, in the main, the arrangement of data developed in previous issues of the YEAR BOOK.

As will be seen from the list of tables, the article consists of five sections, to wit:

A. The Jews of the United States
B. The Jewish Population of the World
C. Jewish Immigration to the United States
D. Jewish Immigration to Other American Countries
E. Jewish Immigration to Palestine

The section on the Jews of the United States is based largely on the study¹ made in 1929 by Dr. Linfield. The other sections are based on official statistics or on estimates.

It is believed that the reader will be especially interested in the list giving the number of Jews in various countries, arranged alphabetically, which is to be found on page 249; the list of cities in the United States having 1000 or more Jewish residents, on pages 242–3; and the list of the principal cities of the world with their Jewish populations, on page 250.
