The present Directory is one of a series compiled annually by the Council of Jewish Federations and Welfare Funds for the purpose of facilitating the exchange of information and experience among Jewish welfare agencies in the United States and Canada.

The Directory covers 247 local Jewish communities in the United States and nine in Canada known to have a formally organized central agency for the planning and financing of Jewish welfare programs. The communities included in the Directory comprise about 91 percent of the estimated Jewish population of the United States and 83 percent of the Jewish population of Canada.

For each of the communities included, there are listed the names, addresses and executive officers of the local central agencies — Federations, Welfare Funds or Community Councils — and of the local organizations receiving financial support from or otherwise affiliated with them. For communities for which such information was available, a listing is also given of Jewish social welfare organizations not officially affiliated with their respective Federations or Welfare Funds but which are known to receive financial support through the general community central fund-raising agency, the local Community Chest or Fund.

The names of the organizations listed and the information regarding them is based entirely on data supplied by the local agency; these data served as the sole guide for determining what local organizations should or should not be included in the Directory.
Attention is called to the fact that the central communal agencies listed, whether they be titled Jewish Federation, Jewish Welfare Fund, Jewish Community Council or by some similar name, vary considerably in form of organization, scope and function. In the main these functions fall within the following categories:

a) Administration of local social services
b) Administration of local social services and financial support of affiliated organizations
c) Coordination and support of local social services
d) Support of national welfare programs
e) Support of overseas welfare programs
f) Common counsel on Jewish welfare problems and needs.

The functions performed by the central agencies listed in the Directory are indicated by the letters a, b, c, d, e, or f, appearing in brackets after name and date of organization.
