¹ The index has been compiled primarily with a view to bringing out those fields of activity which were of concern to American Jews during the period under review, as well as those individuals who participated in these activities. As a consequence, references to organizations active in these various areas have been kept to a minimum. Organizations listed in the classified United States directory of national Jewish organizations are cited in the index. Unless otherwise noted, the entries refer to the United States. For references to Jewish life in foreign countries, the reader is referred to the entries under the particular country.
