November 20, 1931.

Dear Mr. Waldman:

The enclosed copy of letter to the Cuban Ambassador explains itself. If you will compare the copy of your letter submitted to him, you will observe certain discreet omissions. Dr. Ferrere ranks as one of the shrewdest diplomats on duty in Washington. He is a native of Italy. He is just back from a trip around the world. I like him a lot and I have confidence that he will do the right thing on this occasion.

You will hear from me later.

Yours sincerely,

*Fred W. Wile*
